CHECK IT OUT

Below is a list of items that make up a healthy dinner. Can you estimate how much money it will cost to buy tonight's dinner? = \$ _____

Find the items in your grocery cart and write in the "Estimated" prices in the space below. Now scan the items in your cart to get the "Actual" price.

Item	Estimated Price	Actual Scanned Price
Chicken	\$	
Rice	\$	
Baby Carrots	\$	
Milk	\$	
Fig Newtons	\$	
Total	\$	

What was the actual total of the items?

= \$ _____

Was your estimate *higher* or *lower*? _____

<p>Bonus What was the difference between your estimated total and your actual total? _____</p>
